## Our 2020 Gender Pay Gap report

At the Social Interest Group we are confident that men and women are paid equally for doing equivalent jobs across our business. We continue to take action to address any gaps and to make sure our policies and practices are fair.

At the snapshot date, 31<sup>st</sup> March 2020, there were 229 women and 112 men working across the Group. Our analysis of our gender pay gap shows that it is largely driven by the fact that there are more women in lower-paid roles within the business.
